For Immediate Release

Dr. Gayle Serdan Releases New Album White Woman Black Music

Hammond artist, Gayle Serdan released her album titled, White Woman Black Music on December 20th. The album is an honest and funky homage to Black music and Black musicians. Dr. Gayle Serdan's original compositions and arrangements not only illustrate her knowledge of traditional Black music, but her passion and respect for it. With noticeable nods to innovators like Dr. Lonnie Smith of the Jazz organ world and Tupac Shakur of the Hip-Hop world, White Woman Black Music is a perfect blend, an intergenerational and inter genre conversation that will attract the attention of Jazz fans and Hip-Hop heads alike. Serdan's mastery of the Hammond organ is soulful and dynamic, her musical narrative as raw and honest as the album's title. White Woman Black Music is required listening.

Gayle is a well-respected featured artist and educator. Her sound spans generations and includes a powerful combination of Jazz, Funk, Soul, Blues and Hip-Hop. Gayle is a proud Hammond artist and plays frequently in and around Southern California with her band; On the Soul Level. The album is available on her website www.drgayleserdan.com as well as various online download and streaming sites.
